

Junicon announces the founding of Junicon Regulatory GmbH

Junicon is proud to announce the establishment of Junicon Regulatory GmbH, a joint venture between Junicon and Bellingswood Group GmbH. Junicon Regulatory is a medical device and pharmaceutical regulatory consultancy located in Bern, Switzerland and on the web at www.junicon-regulatory.com.

Junicon Regulatory aims to be the first choice worldwide for clients requiring regulatory training and practical support provided by a highly qualified and experienced team with background in industry, notified bodies and competent authorities. We believe adding regulatory services to our portfolio will significantly enhance the value Junicon provides to our core Market Research and Strategy clients.

Junicon Regulatory covers medical devices (MDD 93/42, MDD 2007/47/EEC), *in vitro* diagnostics (IVDD 98/79/EEC) and drug combination products including product registration, quality management systems, sterilization, pre-clinical and clinical studies, post-market surveillance and vigilance systems.

Our services include training, tailor-made regulatory strategy consulting and implementations. Our mission is to be the most valued partner to our clients, navigating worldwide regulatory paths throughout the development process and product lifecycle.

We look forward to hearing your requirements and feedback at info@junicon-regulatory.com or through your usual Junicon contact. Please also visit Junicon Regulatory on the web at www.junicon-regulatory.com.
